E-mail: Registrar@mines.edu

Colorado School of Mines is a public research university devoted to engineering and applied science related to resources. It is one of the leading institutions in the nation and in the world in these areas. Founded in 1874, the first diploma was awarded in 1882.

Accreditation

Colorado School of Mines is accredited through the doctoral degree by the Higher Learning Commission of the North Central Association. The Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology accredits undergraduate degree programs in Chemical Engineering, Chemical and Biochemical Engineering, Engineering, Engineering Physics, Geological Engineering, Geophysical Engineering, Metallurgical and Materials Engineering, Mining Engineering and Petroleum Engineering. The American Chemical Society has approved the degree program in Chemistry.

Academic Calendar

Colorado School of Mines operates on the semester system. The three terms include fall, spring, and summer.

Transcripts

Transcripts issued from 08/1988 to present are computer generated and printed on secure transcript paper, using landscape orientation. Transcripts issued before 08/1988 are copied onto secure transcript paper from permanent record cards, using landscape or portrait orientation. For information on transcripts prior to 05/1947, contact the Registrar's Office.

The message "ISSUED TO STUDENT" will be stamped on the transcript when provided directly to the student.

Official transcript paper changed from blue paper with the Blaster mascot on the front with no legend, to blue and silver security paper with the CSM triangle watermark on the front and with legend on back as of October 1, 2004.

To verify the authenticity of this document, hold toward any light source to view small globe icons that appear as translucent images over entire page.

Repeat Policy Fall 2007 - Summer 2011

The repeat policy in effect from Fall 2007 through Summer 2011 included the last occurrence of a course only in the overall and major grade point averages. This policy is not in effect as of Fall 2011.

An "E" next to the grade for a course signifies that the grade was excluded. An "I" next to the grade for a course signifies that the grade was included. An "A" next to the grade for a course signifies that the grade was included in the grade point averages, but the credit is excluded from the passed and earned hours.

Course Numbering System

100-199	Freshman level	400-499	Senior level
200-299	Sophomore level	500-699	Graduate level
300-399	Junior level	700-799	Graduate research or thesis

Class Rank

Colorado School of Mines does not calculate class rank.

Grading System

Grades are based on the level of performance and represent the extent of the student's demonstrated mastery of the material listed in the course outline and achievement of the stated course objectives. Transfer credits are not included in the g.p.a. calculation.

If a student registered as an NC fails to satisfy all conditions, no record of that registration in the course will be made.

Before Fall 2012 the undergraduate level grading system did not include plus or minus grading (+/-). Before Fall 2006 the graduate level grading system did not include plus or minus grading (+/-).

Grade	Grade Points	
A	4.000	Excellent
A-	3.700	
B+	3.300	
B	3.000	(Undergraduate) Good (Graduate) Acceptable for Graduate credit
B-	2.700	
C+	2.300	
C	2.000	(Undergraduate) Satisfactory (Graduate) May be acceptable for Graduate credit
C-	1.700	
D+	1.300	
D	1.000	(Undergraduate) Poor (Graduate) Not acceptable for Graduate credit
D-	0.700	
F	0.000	Failed
S		Satisfactory (C or better at the Undergrad level) (C- or better at the Graduate level)
U		Unsatisfactory (C or better at the Undergrad level) (C- or better at the Graduate level)
		<u>S and U are used only as mid-term grades.</u>
PRG		Satisfactory Progress
PRU		Unsatisfactory Progress
WI		Involuntarily Withdrawn
W		Withdrew, No Penalty
EX		Challenge Exam (C or better at the Undergrad level)
T		Transfer Credit
INC		Incomplete
NC		Not for Credit (Audit)
Z		Grade not yet submitted

GT Pathways – Colorado Higher Education Institutions only

According to Colorado Department of Higher Education guidelines, the three-character codes for guaranteed transfer courses are SC1 (Phys & Life Sciences) and MA1 (Math). These codes will appear in the title of the CSM course.

Teacher Enhancement Program

By mandate of the Colorado Department of Higher Education, the Colorado School of Mines Teacher Enhancement Program offers content courses in the areas of science, mathematics, and technology. All courses offered by the Teacher Enhancement Program at Mines carry graduate-level, relicensure semester hours of credit. These courses (denoted on transcripts with the prefix "CT" or "TE") are specifically designed for teachers who already hold an undergraduate degree. The credit is applicable to relicensure and school district pay raises in the State of Colorado and is generally accepted elsewhere.

Because Mines does not offer an education degree, the credit is not applicable to a degree program at our institution. Whether or not the course work is applicable to a degree program at another higher education institution is entirely up to the discretion of that institution.

Privacy of Disclosed Information

The attached information has been forwarded to you at the request of the student with the understanding that it will not be released to other parties. The Family Education Rights and Privacy Act of 1974, Public Law 98-380, prohibits release of this information without the student's written consent.
